SUMMARY

Full Stack Developer specializing in React, Next.js, TypeScript, Node.js, Express.js, and MongoDB. Builds fast, scalable, responsive web applications with clean architecture, strong typing, and modern, animated interfaces. Seeking a full-time or remote role at a software house or product team.

SKILLS

Frontend	HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS
Backend	Node.js, Express.js
Database	MongoDB, SQL
Tools	Git, GitHub, Docker, VS Code, Vercel, Postman, Figma

EXPERIENCE

Freelance Full Stack Developer

Self-employed / Remote — 2024 – Present

- Delivered 6+ production-grade projects across e-commerce, SaaS, and real estate domains
- Owned the full stack: React/Next.js frontends backed by Node.js and MongoDB
- Collaborated directly with clients to translate business goals into shipped features

Independent Product Builder

Personal Projects — 2023 – Present

- Shipped Dream Canvas, Lumina, and Nexcant as fully deployed, public projects
- Practiced component-driven architecture and reusable design systems
- Iterated on Core Web Vitals and Lighthouse performance on every release

PROJECTS

Dream Canvas — Creative canvas web app — React, Next.js, TypeScript, Framer Motion

dream-canvas-dev-six.vercel.app

Noirwood — Luxury furniture e-commerce experience — React, Next.js, GSAP

noirwood.vercel.app

Shopify Store — Full storefront with cart & checkout — React, Node.js, MongoDB

shopify-store-umber.vercel.app

House Hub — Real estate discovery platform — React, Express.js, MongoDB

house-hub-cyan.vercel.app

Nexcant — SaaS landing experience — React, Tailwind CSS, GSAP

EDUCATION & GROWTH

Continuous, self-directed education in modern software engineering — structured practice with production-grade architecture, Git workflows, and deployment on Vercel and GitHub. Actively studying the Next.js App Router, Server Components, and system design fundamentals.
